We draw the attention of data users to possible, objectively inevitable differences between here published population figures and figures from the Population register, administrated by the Ministry of the Interior of the Czech Republic pursuant Act No 111/2009 Sb, on Basic Public Administration Registers (respectively from its agenda information systems – Information System of Records of Population and Alien Information System). The Czech Statistical Office does not keep population records, the processing of the population balance is based on documents other than the population records kept pursuant to Act No. 133/2000 Sb, on Records of Population and Birth Numbers, as amended.

All data refer to citizens of the Czech Republic and foreigners with permanent residence in the Czech Republic, third-country nationals with temporary residence in the territory of the Czech Republic based on a long-term visa (over 90 days) or a permanent residence permit, nationals of the EU Member States, Norway, Switzerland, Iceland, Liechtenstein and their dependants with notified temporary residence in the territory of the Czech Republic and foreigners with valid asylum status in the Czech Republic.
