

## 17. TRANSPORT

The data on transport are taken from external sources – the Ministry of Transport of the CR (outputs of freight transport by road, public bus transport, and rail transport), Railway Infrastructure Administration (length of railway lines), Road and Motorway Directorate of the CR (length of the road network), and the Ministry of the Interior of the CR (Central Register of Motor Vehicles).

The length of operated **railway lines** is the length of continuous rail tracks. It does not include other transport, marshalling, and handling tracks. The **road network** includes the overall length of roads of classes I, II, and III; including their sections in cities and municipalities, which are incorporated into the road network. The **numbers of motor vehicles** are taken over from the Central Register of Motor Vehicles updated according to the registers of municipal authorities of municipalities with extended powers. There are only road motor vehicles having valid license plates as at 31 December.
