

Preface

The Czech Statistical Office processes the balance of population in municipalities based on the results of Population Census 2001 and the consecutive statistical accounts on births, deaths and migration. One territorial change was executed in 2007:

- municipality part Habří (district Žďár nad Sázavou) has moved from municipality Strážek under municipality Moravecké Pavlovice

Based on the Regulation (EC) No. 1059/2003 of the European Parliament and of the Council the undermentioned administrative changes were executed as of 1 January 2008:

- NUTS 4 was annulled (districts);*
- NUTS 3 code was changed for regions: Vysočina – new code CZ063 (instead CZ061)
Jihomoravský kraj – new code CZ064 (instead CZ062)*

Instead of NUTS 4 the new term LAU 1 (Local Administrative Units) is used for districts. Territorial units LAU 1 copy the codes from the former units NUTS 4 except regions Vysočina and Jihomoravský where changes of code NUTS 3 have been projected.

It is important to mention that published numbers, based on the balance of population of the CZSO, differ from the evidence of municipal authorities, administrated according to the Act No. 133/2000 Coll.

Prague, 19 May 2008
