21 SERVICES

A HOTELS AND RESTAURANTS

Methodological notes

This subchapter contains basic information on enterprises (business entities) the principal activity of which classifies them according to the Classification of Economic Activities (CZ-NACE) to the section I – Accommodation and food service activities:

55 – Accommodation;

56 – Food and beverage service activities.

Data are taken from the results of processing of annual statistical questionnaires of the CZSO and also using administrative data sources. The data on natural persons are fully modelled from administrative data.

Notes on Tables

Tables 21-1 and 21-2 Basic indicators of accommodation and food and beverage service activities

Both tables comprise total data for the section I of the Classification of Economic Activities (CZ-NACE).

Tables 21-3 and 21-4 Selected basic indicators of accommodation and food and beverage service activities

Table **21-3** comprises selected basic indicators for the division 55 (of the CZ-NACE). Table **21-4** comprises the same indicators for the division 56 (of the CZ-NACE).

B INFORMATION AND COMMUNICATION

Methodological notes

This subchapter contains basic information on enterprises (business entities) the principal activity of which classifies them according to the Classification of Economic Activities (CZ-NACE) to the section J – Information and communication:

The section J – Information and communication includes businesses dealing with, for example, publishing, film making, programme making and broadcasting, telecommunications, and information technologies and activities.

Data are taken from the results of processing of annual statistical questionnaires of the CZSO and also using administrative data sources. The data on natural persons are fully modelled from administrative data.

Notes on Tables

Tables 21-5 to 21-7 Basic indicators of information and communication

Time series contain data on legal persons incorporated in the Commercial Register and natural persons doing their business based on a trade licence or other authorisation. Only entities (businesses) doing their business in order to make profit are included. Time series do not contain data on entities belonging to the non-business sphere (organisational units of the state, semi-budgetary organisations partially funded from the state budget or local government budgets, and non-profit organisations).

C FINANCIAL AND INSURANCE ACTIVITIES

Methodological notes

This subchapter contains basic information on enterprises (business entities) the principal activity of which classifies them according to the Classification of Economic Activities (CZ-NACE) to the section K – Financial and insurance activities:

64 – Financial service activities, except insurance and pension funding;

65 – Insurance, reinsurance and pension funding, except compulsory social security;

66 – Activities auxiliary to financial services and insurance activities.

Data included in this subchapter were obtained from annual statistical surveys. The statistical surveys taken in enterprises with financial intermediation as their principal activity are of the exhaustive type and cover all entities incorporated in the Commercial Register irrespective of the number of their employees.

Notes on Tables

Table 21-8 Basic indicators of banking financial institutions

The table contains selected financial indicators on institutions classified to the CZ-NACE group 64.1. The institutions covered are commercial banks, savings banks, and the Czech National Bank. The financial indicators are defined according to the chart of accounts for banks.

Table 21-9 Basic indicators of non-banking financial institutions

The table contains information characterising enterprises incorporated in the Commercial Register and classified to the following CZ-NACE groups: 64.1, 64.2, 64.3, 64.9, 66.1, 66.2, and 66.3. It particularly covers investment funds, investment companies, credit and saving cooperatives, financial leasing companies, factoring companies, stockbrokers, insurance brokers, and other non-banking financial institutions. These entities keep accounts according to the chart of accounts for banks or entrepreneurs.

Table 21-10 Basic indicators of insurance and reinsurance institutions

The table includes information on enterprises classified to the CZ-NACE groups 65.1 and 65.2, i.e. insurance companies specialised in life insurance, various kinds of non-life insurance, or combined insurance companies (providing both life and non-life insurance) and reinsurance companies. The financial indicators are defined in relation to the chart of accounts for insurance companies.

Table 21-11 Basic indicators of pension companies and funds

Pension companies operating supplementary pension insurance and supplementary pension saving are classified to the CZ-NACE group 66.3 and keep their accounts according to the chart of accounts for banks.

D OTHER MARKET SERVICES

Methodological notes

This subchapter contains basic information on enterprises (business entities) the principal activity of which classifies them to the following CZ-NACE sections:

L – Real estate activities;

M – Professional, scientific and technical activities;

N – Administrative and support service activities;

P – Education;

Q – Human health and social work activities;

R – Arts, entertainment and recreation;

S – Other service activities.

The data included in this subchapter were obtained from annual surveys. As a rule, enterprises with 20+ employees are covered all; data on enterprises with a lower number of employees are obtained by a sample survey.

Notes on Tables

Tables 21-12 to 21-17 Other market services

The tables contain basic indicators on entities (businesses) classified to the following CZ-NACE sections: L, M, N, P, Q, R, and S. The data in tables include information on legal persons incorporated in the Commercial Register as well as on natural persons doing their business based on a trade licence or another authorisation. Only entities doing their business primarily in order to make profit are included in other market services. Part of entities (businesses) classified to the sections P, Q, and R belong to the non-business sphere (organisational units of the state, semi-budgetary organisations partially funded from the state budget or local government budgets, and non-profit organisations) and data on them are presented in separate chapters of the Statistical Yearbook of the Czech Republic.

*Definitions of indicators are stated in Chapter **20** Transportation.*
