

## 20. MARKET SERVICES

### A. FINANCIAL INTERMEDIATION

*This subchapter presents basic information on enterprises whose principal activity classifies them to the following CZ-NACE divisions:*

- 65 - Financial intermediation, except insurance and pension funding*
- 66 - Insurance and pension funding, except compulsory social security*
- 67 - Activities auxiliary to financial intermediation*

*The data included in this subchapter were obtained from annual surveys. For some indicators, however, information acquired through quarterly surveys was used. The statistical surveys taken in enterprises with financial intermediation as their principal activity (CZ-NACE 65 to 67) are of the exhaustive type and cover all incorporated entities irrespective of the number of employees.*

#### **Notes on tables**

##### **Table 20-1. Basic indicators on banking monetary institutions**

*Selected financial indicators on institutions classified to CZ-NACE Group 65.1 are presented. The institutions covered are commercial banks including savings banks. The data also include the Czech National Bank. The financial indicators are defined with reference to the chart of accounts for banks.*

##### **Table 20-2. Basic indicators on non-banking monetary institutions**

*Information characterizing incorporated enterprises classified to CZ-NACE Group 65.2 and CZ-NACE Division 67 is presented. It particularly covers investment funds, investment companies, financial leasing companies, factoring companies, stockbrokers, insurance brokers and other non-banking monetary institutions. These entities keep accounts according to the chart of accounts for banks or businessmen.*

##### **Table 20-3. Basic indicators on insurance institutions**

*Included in this table is information on enterprises classified to CZ-NACE Classes 66.01 and 66.03, i.e. insurance companies specialized in life insurance, various kinds of non-life insurance, or combined insurance companies (providing both life and non-life insurance). The financial indicators are defined according to the chart of accounts for insurance companies.*

##### **Table 20-4. Basic indicators on pension funds**

*Pension funds carrying out pension funding (with contributions from the state) are classified to CZ-NACE Class 66.02 and keep their accounts according to the chart of accounts for banks.*

*In 2002 there was an amendment to the accounting methodology of banks and non-banking monetary institutions. Therefore, the values of some indicators (financial expenses, financial revenues) are not comparable with those published in the statistical yearbooks of previous years covering the periods before 2002.*

Details on the economic results for individual groups of enterprises engaged in financial intermediation can be found in the following CZSO publications brought out according to the Catalogue of Publications 2006 (thematic group 9 - SERVICES, subgroup 94 - Financial Intermediation):

- “Economic Results of Monetary Institutions (Banking and Non-banking) in 2004” (Czech-English) – April 2006
- “Economic Results of Insurance Companies and Pension Funds in 2004” (Czech-English) – January 2006
- “Economic Results of Financial Intermediation (Czech-English) – quarterly, June, September, December 2006, and April 2007

### **Notes on tables**

#### **Tables 20-5 to 20-10. Other market services**

These tables list basic indicators for entities classified to CZ-NACE Divisions 70 to 93. They cover incorporated legal persons as well as natural persons running business under trade or other licence. Included in other market services are only entities whose aim is to make profit, while a considerable part of entities classified to these economic activities (especially to education, research and development, public administration, culture, etc.) belongs to the non-business sphere (government departments, semi-subsidized organizations partially financed from state and local budgets, and non-profit organizations). Data that characterise this sphere of the economy can be found in other chapters of the Yearbook.

Employment indicators, methodological description of financial indicators and sales indicators are defined in Chapters 10. Labour Market, 16A. Industry and 18. Trade, Hotels and Restaurants, Tourism, respectively.

*In 2003 the CZSO began to use available administrative data sources for information on the activity of enterprises, which then led to changes in the imputation methods. The time series was retrospectively adjusted according to the new methodology down to the year 2000 only; comparable data from 2000 were published for the first time in the Statistical Yearbook of the CR 2005.*
