

17. TRANSPORT

The data on transport are taken from external sources – the Ministry of Transport of the CR (numbers of vehicles, outputs of freight transport by road, public bus transport, and rail transport), Railway Infrastructure Administration (length of railway lines) and Road and Motorway Directorate of the CR (length of the road network).

*The length of operated **railway lines** is the length of continuous rail tracks. It does not include other transport, marshalling, and handling tracks. The **road network** includes the overall length of roads of classes I, II, and III; including their sections in cities and municipalities, which are incorporated into the road network. The **numbers of motor vehicles** are taken over from the Central Register of Motor Vehicles updated according to the registers of municipal authorities of municipalities with extended powers. There are only road motor vehicles having valid license plates as at 31 December.*
