20. MARKET SERVICES

A. FINANCIAL INTERMEDIATION

This subchapter presents basic information on enterprises whose principal activity classifies them to the following CZ-NACE divisions:

65 – Financial intermediation, except insurance and pension funding

66 – Insurance and pension funding, except compulsory social security

67 – Activities auxiliary to financial intermediation

The data included in this subchapter were obtained from annual surveys. For some indicators, however, information acquired through quarterly surveys was used. The statistical surveys taken in enterprises with financial intermediation as their principal activity (CZ-NACE 65 to 67) are of the exhaustive type and cover all incorporated entities irrespective of the number of employees.

Notes on tables

Table 20-1. Banking financial institutions: basic indicators

Selected financial indicators on institutions classified to CZ-NACE Group 65.1 are presented. The institutions covered are commercial banks, savings banks, and the Czech National Bank. The financial indicators are defined with reference to the chart of accounts for banks.

Table 20-2. Non-banking financial institutions: basic indicators

Information characterizing incorporated enterprises classified to CZ-NACE Group 65.2 and CZ-NACE Division 67 is presented. It particularly covers investment funds, investment companies, financial leasing companies, factoring companies, stockbrokers, insurance brokers and other non-banking financial institutions. These entities keep accounts according to the chart of accounts for banks or businessmen.

Table 20-3. Insurance institutions: basic indicators

Included in this table is information on enterprises classified to CZ-NACE Classes 66.01 and 66.03, i.e. insurance companies specialized in life insurance, various kinds of non-life insurance, or combined insurance companies (providing both life and non-life insurance). The financial indicators are defined according to the chart of accounts for insurance companies.

Table 20-4. Pension funds: basic indicators

Pension funds carrying out pension funding (with contributions from the state) are classified to CZ-NACE Class 66.02 and keep their accounts according to the chart of accounts for banks.

_____

The data in the tables are fully comparable with those published in previous Statistical Yearbooks.

B. OTHER MARKET SERVICES

This subchapter presents basic information on enterprises whose principal activity classifies them to the following CZ-NACE economic activities:

70 – Real estate activities

71 – Renting of machinery and equipment without operator and of personal and household goods

72 – Computer and related activities

73 – Research and development

74 – Other business activities

75 – Public administration and defence; compulsory social security

80 – Education

85 – Health and social work

90 – Sewage and refuse disposal, sanitation and similar activities

91 – Activities of membership organizations n.e.c.

92 – Recreational, cultural and sporting activities

93 – Other service activities

The data included in this subchapter were obtained from annual surveys. As a rule, enterprises with 20+ employees are covered all, and data on enterprises below 20 employees are obtained by sample surveys.

Notes on tables

Tables 20-5 to 20-10. **Other market services**

These tables contain basic indicators on businesses classified to CZ-NACE Divisions 70 to 93. The data cover incorporated legal persons as well as natural persons doing business on the basis of the trade licence or other authorization. Included in other market services are only businesses which operate primarily for the purpose of making a profit. Part of businesses classified to education, research and development, public administration, culture, etc., belong to the non-business sphere (government departments, semi-budgetary organizations partially funded from state and local budgets, and non-profit organizations) and data on them can be found in other chapters of the Statistical Yearbook.

Definitions of employment indicators are set out in Chapter **10**. Labour Market, methodological description of financial indicators in Chapter **16A.** Industry, and definitions of sales indicators in Chapter **18**. Trade, Hotels and Restaurants, Tourism.
