

14. ENERGY

Information on the **consumption of fuel and energy** is measured in all industries of the national economy for incorporated enterprises. Data on the consumption of fuel and energy is observed in the group of enterprises with 20-99 employees at selected enterprises only (the share of the sample selected differs by industry). Data are collected for all enterprises in the group of enterprises with 100+ employees.

The **consumption** of individual **types of fuel** includes production and non-production consumption, including input and operating consumption of processes of electricity production, heat production, and fuel upgrading processes, including consumption of diesel oil and gasoline for intra-enterprise transport.

Consumption of electricity – also includes own consumption for production.
