

CONTINUING VOCATIONAL TRAINING SURVEY (CVTS) - Methodology

Survey : resulting from Commission Regulation (EU) No 822/2010 of 17 September 2010, amending Regulation (EC) No 198/2006 implementing Regulation (EC) No 1552/2005 of the European Parliament and of the Council on statistics relating to vocational training in enterprises; the survey was again compulsory for all EU countries and that is why this survey had to be in the Czech Republic conditions incorporated, before its realization, into the Programme of statistical surveys and later on into the Statute book

Reference period : year 2010

Subject of the survey : the economic entities (even though is used in the Eurostat's manual generally the term „enterprise“ for all economic entities - from classic enterprises to financial or insurance institutions, accommodation or recreational facilities, etc.) with a minimum of 10 employees in the same branches - sections (B to N and R + S) and in the I-SECTORs (11 to 13, 141, 142 and 15), as it was in the case of previous surveys (this implies that, just as it was within CVTS 4, the economic entities with less than 10 employees and in the sections O - Public administration and defense, P - Education and Q - Health and social care did not have assigned any reporting obligation)

Sample size : 10 000 responding units (in the survey CVTS 3 to the same extent, unlike the survey CVTS 2, covering only 7 000 respondents)

Grossing up of the whole population, i.e. of 43 403 economic entities
