- 107 Daniela Kuruczová, Jan Kolářček**  
Bandwidth Selection Problem in Nonparametric Functional Regression

## INFORMATION

---

- 116** Publications, Information, Conferences

### About Statistika

The journal of Statistika has been published by the Czech Statistical Office since 1964. Its aim is to create a platform enabling national statistical and research institutions to present the progress and results of complex analyses in the economic, environmental, and social spheres. Its mission is to promote the official statistics as a tool supporting the decision making at the level of international organizations, central and local authorities, as well as businesses. We contribute to the world debate and efforts in strengthening the bridge between theory and practice of the official statistics. Statistika is professional double-blind peer reviewed open access journal included (since 2015) in the citation database of peer-reviewed literature **Scopus (SJR 2016 = 0.121, CiteScore 2016 = 0.15)**, in the **Web of Science Emerging Sources Citation Index (ESCI)** of **Thomson Reuters**, since 2016) and also in other international databases of scientific journals. Since 2011 Statistika has been published quarterly in English only.

### Publisher

The Czech Statistical Office is an official national statistical institution of the Czech Republic. The Office's main goal, as the coordinator of the State Statistical Service, consists in the acquisition of data and the subsequent production of statistical information on social, economic, demographic, and environmental development of the state. Based on the data acquired, the Czech Statistical Office produces a reliable and consistent image of the current society and its developments satisfying various needs of potential users.
